Reasons For Allowance

1. Pursuant to 35 USC 131, **Claims 1-17** are presented for examination.

2. **Claims 1-17** are allowable over the prior art.

2.1 The following is an Examiner's statement of reasons for the indication of allowable subject matter: the prior art is exemplified by (US Patent No. 6700893) to **Radha et al.**

Radha et al. discloses controlling the delay budget of a decoder buffer in a streaming data receiver wherein *'Delay budget controller. 138 monitors ITD buffer 132 to detect the absence of expected packets. If a packet is not received after a minimum monitoring time, it is determined to be lost and a NACK message is sent to streaming video transmitter 110 (process step 615). Using the statistics gathered by real-time QoS characterization circuit 505, delay budget controller 138 calculates the probability distribution functions for round trip delay and delay jitter. Delay budget controller 138 also calculates the probability that a video packet has actually been lost when it was declared lost (process step 620).'*

However, **Radha et al.** does not teach or suggest the combination of claim elements described therein.

2.2 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

* Any response to this action should be mailed to:
